ADDRESS

Slachthuislaan 12/209
3000, Leuven, Belgium

SKILLS

HTML/CSS

JavaScript

React/MongoDB

MySQL/Node.js

Personal Information

For 6 months, I have honed my skills as a web-developer, learning how to build web applications with HTML, CSS, JavaScript, React, Node, databasing in MySQL and MongoDB, and best practices for coding. I know there's so much more to learn and that is what excites me.

WORK EXPERIENCE

Nov 2013
Sep 2017

Project Management Expert,
Ministry for European Union Affairs, The Center for European Union Education and Youth Programmes, Ankara, Turkey

--Involved in counselling of potential applicants about developing and adapting project scopes, goals, deliverables, adequate project plans, and evaluating their grant applications.
--Monitored implementation of the approved and funded projects under Erasmus+ programme and use of the resources allocated to the project, keeping and evaluating project reports, carrying out administrative, financial and legal proceedings regarding the projects
--Teamed with 4 people within The Centre, accountable for managing the entire scope of a project financed under IPA funds worth of 25,000,000 EUR, conducted impact evaluation study for the project with a team of six people.

Sep 2007
Nov 2013

Teacher of English Language,
Kazan Primary School, Ankara, Turkey
9 Mart Primary School, Rize, Turkey

--Developed learning strategies and curriculum across grade levels to help students reach intended educational goals.
--Participated in-going staff training sessions.
--Worked with disadvantaged students-because of economic and geographical obstacles- through drama activities.
--Assisted in implementation of a project which was worth of 89,000 EUR funded by Prime Ministry Undersecretariat of Treasury, Central Finance and Contracts Unit.

EDUCATION

Jun 2019
Dec 2019

HackYourFuture Belgium, Brussels, BE

Six months course is divided into 7 modules which cover HTML, CSS, JavaScript, Node.js, React and MySQL. The last module includes a full-stack Project in teams. My final project before graduation is a web application that especially new developers can create their portfolio with a resume and showcase their best works.
